**BLAKESTOWN COMMUNITY SCHOOL**  
**POBALSCOIL ÉANNA**

**NEWLINK 2016**

# PRINCIPAL'S ADDRESS

As always it is a pleasure to write in this edition of Newslink. Readers of Newslink , really enjoy our annual school magazine, that so aptly chronicles our many activities and successes.

Last year, I wished our students well in the Pope John Paul II Award and then on Friday 27th November, 2015 in St. Paul's Church, Arran Quay, I shared a very special evening with parents. Nine of our students were presented with Gold Awards by Bishop Ray Field, acknowledging their active involvement in their community. I especially thank their Award Leaders Ms. Mary Quinn and Clinton Maher, Pastoral Worker and Fr. George Begley, Huntstown Parish for his support. A first for Blakestown Community School and Blanchardstown.

Nationally, this is a very special year as we commemorate the Centenary of the 1916 Rising. Blakestown Community School embraced the Centenary Programme with many related activities. On March 7th, Ms. Linda Chatham and I accompanied Jason Kinch Cording, Trevor Fahey and Amanda Beatty nominated by the school to collect our official copy of the Proclamation, at the National Flag Ceremony in the presence of our President of Ireland Michael D Higgins in Croke Park. We survived the cold and it was most enjoyable.

For me, Proclamation Day, Tuesday March 15th is most memorable, as our students took pride in the raising of the flag. Over my 33 years in Blakestown Community School there have been many emotional moments, but raising our National Flag on that day will be especially treasured. I thank the committee of staff and students who organised the event and our Irish dancers, who really enhanced the ceremony.

I would also like to commend the exhibition of history projects in the school library, the standard was excellent, making the task of judging very difficult. On a visit to Kilmainham Jail, our sixth year students were most fortunate to meet and have photographs taken with the granddaughter of Thomas MacDonagh, signatory of the Proclamation of the Irish Republic.

I also congratulate our Water Explorers, "Aqua Dudes" who were awarded with an International Award in the area of Community Impact. Another first for Blakestown Community School. They are wonderful ambassadors for our school and well done to them and their mentor Ms. Shauna Keyes.

On behalf of the Board of Management, Ms. Carroll and myself, I express a deep and genuine gratitude to all staff who give so generously of their time to engage students in such a variety of events and activities outside the classroom. Three wonderful performances of our Variety Show took place on 10th March, 2016. A big thank you to show director Ms. Jackie Forde and all staff and students involved. The talent showcased was amazing and much appreciated by packed audiences. I also commend our students, winners of Fingal Anti-Graffiti Poster Competition and the students who collected our World Wise Global Schools Diplomatic Award for work in Development Education. Mercury class who designed bookmarks for Ethiopia, our Regional Finalists in the Build a Bank Challenge and all students who engaged in Active Week organised by our P.E. Department.

I want to especially remember our esteemed colleague, teacher and friend Anne Fitzmaurice who died 30th August, 2015. Anne, an excellent teacher of English, History, Geography and

Religion taught in Blakestown from 1985 until she retired in 2009. She is fondly remembered by colleagues, parents and students past and present. It was a very sad time for all in Blakestown Community School when we parted with a very valued member of our school community. We remember her husband Sean and daughter Eimear in a very special way.

Since the last issue of Newslink, Mr. Brendan O'Daly retired. Brendan joined our staff in September 1980 and enjoyed a long and successful career in Blakestown Community School. Brendan taught Business, Business Studies, Maths and Accounting. I can only speak mostly highly of Brendan's personal and professional attributes as he discharged many duties over the years including Class Tutor, Year Head, Subject Co-ordinator of Business, timetabling and Exam Secretary. He will be especially remembered for the development of performing arts in Blakestown Community School as he produced and directed phenomenally successful musicals. He also enjoyed a huge fan base as a member of the much loved "Men in Black". A loyal, kind, supportive colleague, friend to many and widely respected by staff, students and parents past and present. It is great to have this opportunity to pay tribute to one of the finest colleagues, a person could have - and a thorough gentleman. We wish Brendan well on his retirement.

Mr Patrick Butler, our school caretaker is retiring this month. Paddy has a long association with Blakestown Community School, as his children attended our school and he started work here in 1999. Paddy was totally committed to his work and caretaking in Blakestown Community School is a demanding job. Paddy has a genuine interest in the school, positive, affirming and very supportive of staff and students. Paddy, a valued colleague will be missed by everyone, his close friends on the maintenance team and especially Ralph - they have shouldered the onerous task of caretaking for many years together. We wish Paddy a long and happy retirement with his wife Bridget and family. I hope he will make plenty of time to relax and read. I thank you Paddy for the contribution you made to Blakestown Community School over the years.

Our School Self Evaluation (SSE) for literacy and numeracy is well established. We have also completed our SSE report on Assessment for Learning (AFL). The School Improvement Plan for same is underway and will provide a tool kit of assessment strategies. Spelling Bee has reached the final and a countdown competition in numeracy is to follow. Again this year over sixty students received Excellence Awards and sixteen Outstanding Attendance Awards. Well Done.

We have gained new members in our Parents Association and our new HSCL teacher Ms. Shauna Keyes and I appreciate their support and look forward to regular meetings. Our Student Council is thriving, they have met with me as Principal and presented their ideas to the Board of Management. Keep it Up.

Being Principal is both rewarding and challenging - as Management, we have to oversee the implementation of the Framework for Junior Cycle. This implementation involves great changes for Management, Teachers, Parents and Students. The initial changes will take place in English, Science and Business - now known as specifications rather than subjects. The school will keep parents informed as we have already done with classroom based assessments (CBA's) in 2nd Year English.

We intend to continue the Friends for Life Programme, a school based positive mental health programme and with the support of the Board of Management I continue to lobby the DES for essential financial assistance to update our ICT system. We will continue to tackle the issue of attendance and punctuality - I appeal to parents for your support in these areas.

I thank all the teaching staff, SNA's, Student Support Team, Chaplain, Pastoral Care Teams, SEN Department, HSCL, NBSS and EAL teachers and the staff of EOP - Eleanor, Una, Lisa, Rita and Karen, The BMYI, Board of Management and Parents for their support.

I would like to thank Ms. Bernadette Carroll Deputy Principal for her tremendous support and phenomenal work rate during the last year.

I also thank our Secretarial Staff Fiona, Nicola and Aelita, Maintenance Staff Ralph, Paddy, Ann, Roisin, Philomena and Michelle, Leo and his team and our TUS team Michael, Murat and Derek. Thank you to Marcella who sustains us all throughout the year.

A final word of thanks to this year's editorial team Mr Stephen Dunning and Eoghan Byrne. Producing Newslink is a demanding task and well done on another fine production.

Eileen O'Connor  
Principal

---

## THE EDITORS

It is a great honor to welcome you to this years Newslink. This years Newslink is filled with all of the activities, trips and workshops that the students took part in in the school year of 2015-2016. We asked students from all years to write articles and take pictures of things they got up to throughout the year. We also asked teachers to write about things they managed to get up to throughout their own year from trips to shows! We have tried to squeeze as much content as possible into this years newslink but unfortunately there wouldn't have been enough trees in the world to print off everything we have managed to achieve this year!

A big thank you to everyone who wrote articles for this years newslink, to all the TYs who helped collect all the articles and to Eoghan Byrne and Mr. Stephen Dunning for compiling this years Newslink.

Enjoy!

*Eoghan Byrne*

# Anne Fitzmaurice

## *An Appreciation*

Just as we were about to embark on a new academic year in Blakestown Community School we were very saddened to learn of the death of our dear colleague and friend Anne Fitzmaurice. While many of you who read this edition of Newslink may not have known Anne (as she retired from Blakestown in 2009) I can assure you that she made an indelible mark on the students she taught and the staff she worked with during her time here.

Anne was renowned as an English teacher in Zambia before she joined the staff of Blakestown Community School in September 1984. From the very beginning, she was a dedicated and dynamic teacher who had a deep interest in both her subject and her students. She loved teaching in Blakestown, had a brilliant sense of humour and a great appreciation and understanding of the challenges of modern life and the effect it had on the learning of the pupils before her. She had a holistic view of student development which was borne out in her teaching methodologies. She enjoyed every aspect of life in the school and we were privileged on many occasions to be entertained by her beautiful singing voice.

Anne always had a great love of life and lived it to the full, so it was very sad that in the prime of her life she became very ill. It was this illness that eventually took her from us in September of last year. She is greatly missed by her many friends and colleagues, not to mention her devoted husband Sean and their daughter Eimear.

Ar dheis De go raibh a h Anam dilis.

# GIVING TREE

Hi, we the students of Jupiter class decided to organise the St. Vincent de Paul Giving Tree as part of our c.s.p.e. project. The Giving Tree is a long standing tradition here in Blakestown Community School and each year the generosity of the students and teachers is astounding. The society of the St. Vincent de Paul has worked tirelessly to ensure that all families in our local area have what they need each Christmas and indeed throughout the year and this year, we the students of Jupiter Class were delighted to help out. We collected money, vouchers and toys for all age groups and were delighted to present them to the Vincent de Paul in December. For us it made the idea of Christmas much more meaningful and really filled us with the Christmas spirit.

# Blakestown Community School

15/03/2016

## Energy & Environment Awareness Day 15/03/16

[www.greenaware.ie](http://www.greenaware.ie)

## World Wise Global Schools

For many years now the staff and students of Blakestown Community School have been working alongside World Wise Global Schools in delivering quality education in the area of Global Development.

Being World Wise is essential in today's education as students recognise the connections between Ireland and the rest of the world. Students and staff recognising that their actions impact others around the world and that they have a responsibility to understand the global picture. Students explore global issues in many of their subjects ie. Geography, Religion, CSPE, History, Science, Social Education and English as well as through specialised projects like Young Social Innovators, Debating, BT Young Scientist, Water Explorers and CSPE Action Projects.

On the 14th of April 2016 a small group of students from first to fifth year represented the school and travelled to Thomond Park in Limerick to attend the WWGS Annual Conference. Blakestown exhibited the work of our school alongside other schools in the country and were awarded the Diplomatic Passport for our contribution and work towards achieving the Millennium Development Goals. We had a wonderful day and students participated in workshops and listen to inspirational speakers who are active in a global context.

Our work in the area of Development Education will continue next year in all areas of school life. Our students will continue to be inspirational leaders in our community and represent Blakestown Community School as a **World Wise Global School**.

## Green Schools

Our staff and students have been very busy again this year in the area of Green Schools. The current theme is Biodiversity which encompasses every living thing on the planet. The birds, the bees and the worms made their way into our classrooms, alongside many a plant and bulb.

Greenschools is a programme aimed at allowing students to become actively involved in their environment and its protection. Students learn inside and outside their classroom and are encouraged to use their learning every day in how they live their lives. Students must become responsible users of our earth and become aware of how their actions impact the world around them.

With this in mind we work in partnership with many agencies, An Taisce, Eco- Unesco, World Wildlife Fund, Badgers Trust Ireland, Crann and many, many more. Students have participated and enjoyed many workshops in these areas and continue to explore the world of Biodiversity.

Students continue to work on the previous themes of Litter and Waste, Energy, Water and Travel and as a result of this we have been awarded our Fifth Green Flag!!

Well done Blakestown!!!

## Water Explorers

Last year a few of us from TY took part in the Water Explorers Competition. To take part you had to do loads of different challenges to boost the awareness about water conservation. We held a water festival for most of the school to attend and learn about water and play a fun water based game. Doing this won us the all Ireland Water Explorers Championship. We were buzzing. This year we went to the HSBC bank to see where we came in the world contest. We won the Community Outreach Award and came fourth in the world. We were delighted we came fourth in the whole world but a bit down that we didn't get to go to Milan. In the end we felt great bringing such a great award back to the school. Four of us also went to the aquatic centre for a photoshoot. We all felt like models. I was dressed in my superhero costume and the blue was very hard to maintain when all I wanted to do was jump in the pool. Two other people who was part of the "Aqua Dudes" went to the Pheonix FM radio station to do an interview about the whole water explorers experience. Finally as a whole group we got the chance to create a short promotion video, which we all loved! Overall the whole competition was great fun and a great achievement and something I will remember the rest of my life.

Andrew Byrne

## Gaeltacht 2015

In May 2015 a group of 1<sup>st</sup> years went to Achill Island off the coast of Mayo. We all met up outside the school on Friday morning at about 8 o'clock. Ms. O'Mahony and Ms. O'Riordan accompanied us on the tour. We got the bus across to Longford where we stopped at Mc Donald's for some breakfast. We then arrived at the Gaeltacht in the afternoon where it was lashing rain. We went into the hall where we then went upstairs to have some lunch. We were given soup and sandwiches which we thought were disgusting. After we finished our lunch we went back downstairs to hall where we did rock climbing and played games. We were brought to our Bean an Tí afterwards and the boys and girls were separated into different houses. We had our dinner and left to go gorge walking. We went to go get our wetsuits. They were so hard to put on. We went gorge walking in two different groups and we all got re-baptised with different names. We went back, got changed out of our wetsuits and went home. When we went home we had our supper and then we went to bed at 11 o'clock.

The next morning, we were woken up at 8 o'clock for our breakfast. We went upstairs got dressed and left to go get our wetsuits on once again to go surfing. We all had such a good time at surfing as it was something we had never done before. We went back to the hall where we had our lunch and we were given soup and sandwiches which we loved this time around. Is maith an t-anlann an t-ocras! We stayed in the hall for a while and later on that day we went back again to put on our wetsuits. We went to the bog where we did an obstacle course. The obstacle course was great we had to climb over and under a number of wooden beams. It was all team work. One of the best parts of the whole entire trip was the bog. At the end of the obstacle course we had to go through the bog. Holly and Hannah were the first two people to jump in everyone else was too afraid. After the bog we returned to our houses to get showered and into our pyjamas. We all went to the hall for a movie night but instead we played numerous games.

The following morning was the last day so we didn't have much time to do any activities. We still had a great day we went to the beach to play different types of games. We went back got changed went back to our houses got our stuff and said goodbye to Achill. On the way home Ms. O'Mahony bought everyone Mc Donald's. We arrived back at the school at about half 5. We had such an amazing experience.

Our leaders down in the Gaeltacht were so friendly, Thómas and Humphry. Thómas was our favourite by far he was so funny and we had a great laugh with him. We will always remember this trip as we had such an amazing time. We can't wait to go back again this year.

Written by Holly Moran and Hannah Bould Conroy from 2<sup>nd</sup> Year Taylor Class

# Build a Bank Challenge

## BCS Beast Bank

My experience with the bank was a great one. I learned so much, made new friends and had fun. When Ms Kelly came to our business class about the idea of setting up the school bank I was interested straight away. It was nerve wrecking going to the interview to see what job we would get. For most of us it was our 1st interview so it was great experience for us. It was difficult for us at the start setting up a bank we didn't know where to start. Our main problem was finding a name and theme for the bank but as soon as "The Beast Bank" came we knew it was the name for our bank. After that we started to advertise our bank. We made posters, announcements were made daily on the intercom and we went around to classes to see who would be interested in the bank. There was a huge amount of work required to set up our bank. As well as putting all the work in at our meetings we did have fun with the whole build a bank challenge. I know now coming away from the bank I have gained valuable experience and new friends.

The build a bank challenge altogether was a good learning experience for all the participants from the Beast Bank. It taught all of us how to work as part of a team and how to solve problems as one unit. It also gave us an insight into the world of banking as we learnt how to make lodgements, record daily transactions and answer customer queries. The school students also benefitted by being made aware of saving. The competition in Athlone was a wonderful experience for the members of Beast Bank as it showed us how other school banks were operated and we learnt a lot that will be applicable in our futures. We achieved a Silver Award for our Bank which we are delighted by and proud. The build a bank challenge was extremely worthwhile and rewarding.

By: Andrew Byrne and Jermaine James

# Botanic Gardens

On Monday the 25th of April Mos. Mc Cullagh and Ms. Barry brought Taylor class and the TY'S to the Botanic Gardens in Glasnevin. We left the school at 10 am and we arrived at the gardens at about 25 past 10. When we got there we had an hour to look around and do what we wanted because our tour didn't start until half past 11. In our spare time we went to an exhibition in the visitors centre about Sackville Street in 1916 .Sackville Street is now known as O'Connell Street. It's amazing how much the street has changed since 1916 it used to be all houses and now it is all shops.

When the tour started we met our tour guide her name was Niamh. Firstly we visited a greenhouse called the "alpine house" it's called the alpine house because the flowers and plants originally grew in the Alps. After the alpine house we walked towards the Viking house. On the way we stopped at a huge tree and niamh told us that it is one of the oldest plants in the garden; it has been there since the dinosaurs. When we got to the Viking house we learned lots about the Vikings including the original name for the house which was a long house, what the house was made from, why they lived a short life and how the fire affected the people and the house.

Afterwards we visited a vegetable garden, with strawberry bushes, potatoes and cabbages. We also looked at bees, bees help pollinate the garden.

Next we went to a cactus house; it had all different types of spiky plants. When we were finished we went into a rainforest house, the house was damp and humid.

After the botanic gardens we went to glasnevin cemetery. We visited Michael Collins grave and the round tower. We saw a re-enactment from 1915 of Padraig Pearse speech at O'Donovan Rosa's grave. We visited the remembrance wall showing the names of all those who died during the Easter rising .It was the 100th year anniversary of the rising the day we visited. We were allowed to visit our family's graves and we all had to meet back up at the visitors centre in the botanic gardens.

We thank Ms. Barry and Ms. Mc Cullagh for bringing us on the trip.

Cian Mc Cullagh and Holly Moran

## My Basketball Experiences

A My experience with Blakestown C.S Basketball has been something special. Monday was always the day I looked forward to, training day. I got the opportunity to play the game I love with my teammates and have a ton of fun while doing it.

In late January, our team got a chance to play and eventually win a tournament that was held in Blakestown. It was a great day, one that I and the rest of my teammates shall remember for a very long time. To top it all off we won it in style, with a last second winning shot. Blakestown Basketball has been something incredible for me, the moments I spent with my teammates on and off the court are things I will cherish for a long, long time.

Hubert Augustyn

## 1<sup>st</sup>/2<sup>nd</sup> Year Basketball

A good season was had by the team this year. Excellent commitment and effort was shown in training every week and huge improvements have been seen on the court. They played in a tournament to end the season winning one game and drawing another. We look forward to continuing on the success of this year.

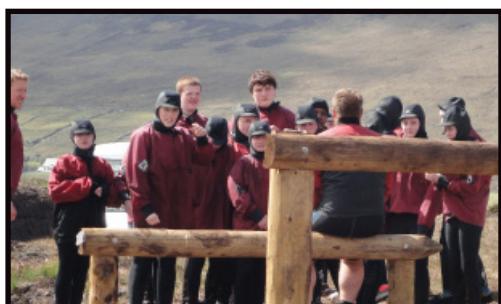

## 1<sup>st</sup> Year Sports Day

All 1<sup>st</sup> years took part in a multi activity sports day on Wednesday 27 th April. It was a tremendous success with all students having a great time participating in large variety of activities. With the excellent help from 25 5<sup>th</sup> year students the 1<sup>st</sup> years took part in basketball, obstacle races, benchball, zumba, welly throwing, continuous relay, tug of war, fitness and football. A great day was had by all involved. Here are a few pictures to show the fun they had.

## 1<sup>st</sup> Year Soccer

Blakestown has been playing in Division 2 of the Metro League for several seasons now – it suits us well as it reflects the standard of soccer in the school. In September 2015, for the first time in many years, there were less than fifty boys in first year, and so the school was permitted to enter the First Year 'B' Cup.

The league fixtures got underway against Luttrellstown CC – a new school and therefore an unknown quantity. On match day, two of our better players – Wesley Troy and Samuel Ayoola – were absent through injury. We were well beaten and everything was now hinging on the other pool match against Adamstown CC.

Hartstown Park was the venue for this fixture. Blakestown played well – Ryan Butler and Craig Moore got on the scoresheet and we won 4-2.

There was a draw for the playoff for the quarter-finals. Blakestown got Marian College away. Irishtown Stadium is an astro pitch complex in the Ringsend area, right on Dublin Bay. On February 9th the wind was howling, it was bitterly cold, there were frequent snow flurries and the players' legs turned red. Worst of all, I got completely drenched on the touchline. Samuel Ayoola, Craig Moore and Kevin Kiala all scored, but the biggest cheer of the day was when Patrick Keenan scored from twelve inches out. We won 5-1. The quarter-final was played in Killinarden at the home of the Sacred Heart Club, again on an astro pitch. Killinarden turned out to be a well-organised and well-drilled outfit. Wesley Troy was substituted having been injured within the first five minutes. Thereafter it was a rearguard defensive picture as most of the play was in our half. We went out of the competition. Incidentally, since this pitch is built up a hill and cut into the mountain, there is a great view of the Hill of Howth from it.

Grangegorman, which is off the North Circular Road, is the location for the new DIT campus. It is not yet completed, but by the time our current first years graduate from school it will be finished. Having seen the quality of the new astro pitch, it will be a very attractive venue for some Blakestown students to complete their further education in the

future. It was here that we played North Brunswick Street in the first round of the 'B' Cup. The opposing manager spoke to me before the game. 'If this gets to 4 or 5-nil, we'll knock it on the head,' he said. I didn't know if he was being serious, but as it turned out he was referring to his own side. We won the match comfortably by a score of 4-1. Samuel Ayoola got a hat-trick.

The second round game was against Ballymakenny College from Drogheda. It was played at Hartstown Park. We had three one-on-one chances with the goalkeeper in the first half but failed to score. Ballymakenny grew more confident and, as the game developed, played some decent football – the final score 5-3 to Drogheda.

Thanks to all who registered, trained and played with the team this year. The arrangements for soccer next year will be explained in September.

Patrick Murphy

# First Year Poetry

## The Beauty of Nature

I drove past the airport one day  
And saw all the planes fly away  
How I wish I could fly away  
To a far away land or a sunny beach  
Or a snowy forest to hear and see nature  
and its beauties

And when I look at the birds I think the  
same way  
Why don't you fly to a beautiful place  
But then I think to myself and I wonder  
Why do I say this when I could go anywhere  
too

All I have to do is save up some money  
And pick a place should it be a  
Nice warm beach or a cold snowy place

But I think I'll stay here in my beautiful  
house  
With my wonderful family  
And I'll keep on thinking about nature's  
beauties

- Keith Sherwin

## It's Just a Band

It's just a band,  
They say to me,  
But that band helped,  
when I was at my lowest,

Their music is my escape,  
My escape when life gets hard,  
I just put on one of their songs,  
And suddenly everything gets better,  
I know it might be silly,  
But it is the truth,  
That band is the world to me ,  
But I'm just another fan in the crowd.

- Rebecca Lambert

## Animals

Animals can be your best friend,  
You can have one that barks,  
Or one that bends,  
Pets are the best,  
Better than the rest.

Hamsters, horses, dogs and cats,  
Maybe you'll even have a bat  
Adopt, not shop,  
Is the best thing to do.

So go and get one for yourself,  
Just pick it up from the pet shelf.

- Melisa Fazlic

## That Girl Over There

See her over there,  
With the long brown hair,  
See won't speak ,  
Nor eat,  
I wonder if she even sleeps

I see her at the park everyday,  
And lays down at night on the hay,  
With tears streaming down her face,  
Her life is hell,  
But she needs to ring a bell,  
to let people know what she's going  
through,

But today when I went to the park,  
She wasn't there,  
I spent hours looking for her,  
Until I found her in a stream,  
But all I could honestly do was scream,

I never realised until that day that,  
I really,truly loved her.

- Krysia Reid

**Why**

Why do you bully me  
You want to bring me down.  
You call me ugly and a clown  
I try to be friendly  
But all you say is give me your lunch money.

I sat beside you in English today.  
You told me I smell.  
I moved away next to Annabell.

Sometimes I don't get you.  
I just want to run away.  
Just answer this question

WHY!

Why do you bully me.  
Why do you hurt me.  
Why do you want to bring me down.

JUST WHY!

-Tracy Uba

**My Glasses**

When I put on my glasses  
I can see so much clearly  
How the trees do their dances,  
How the strands of grass move.

I can see every inch of detail.  
Every expression, every mood.  
I might even stare a lot  
But that's alright,  
They understand

But sometimes,  
It's a little too much  
My head starts spinning and I know it's  
enough

When I take off my glasses  
It's the same again.  
An image with a blur.  
I like the world better that way.

- Christina Botezatu

**The Wild**

The wild is heaven to animals,  
As they jump up and down in their free will,  
Every animal is home and free,  
Unlike the ones in the city.

If you're hungry,  
You hunt for food instead of waiting for  
someone to get it for you'  
Everyone is free,  
Everyone is happy,  
The air is fresh,  
No cars, no buses, no trains and most of all  
No factories to ruin the fresh air.

In the wild, you can feel the freedom,  
you can feel the love.  
I am not an animal but I know about being  
free.  
And the wild is a perfect place

- Lorraine Dube

# John Paul II Award

Last year a group of us TY students took part in the John Paul II Award. This award consisted of community involvement in co-operation with the church. A few of us went to Mountview Church and the rest of us went to Hartstown Church. For the first few weeks we handed out leaflets and did readings but after a while we decided it would be a good idea to set up a children's group for the children who go to church so they can listen to a simpler version of the gospel. Back in November an award ceremony for all the youths of Ireland who took part on the John Paul II Award in the John Paul Cathedral. The night was great. The ceremony started with all the participants carrying candles down the aisle. Everyone from our school got the gold award. At the end of the night there was food for everyone. Overall it was a great experience and a good night and would do it all again in a heartbeat.

# 5TH YEAR TRIP TO CAUSEY

As the prize for the 5th year Attendance Competition, Oak and Elm class (along with a few more students with good attendance from other classes) went on a trip to Causey Farm in Meath.

Once we arrived we were brought to do Irish dancing with partners. We really enjoyed it as it was easy to learn and fun. After the dancing we went to make our own bread. This also was enjoyable and simple recipe we will definitely use again.

We had our lunch and then went to the bog. It was the first time we were transported in a trailer of hay and it was definitely quite exciting. As we reached the bog we took our shoes off and went racing into the bog.

Everyone was shouting and laughing as they were getting stuck in the bog, but were instructed on how to get out of it. We dived in a couple of more times and by the time we got out we were covered from head to toe with the bog contents (turf and water).

Towards the end, we even got to milk a cow. We saw more animals, then went to collect our bread and went home.

Overall our trip to Causey Farm was really enjoyable and unforgettable.

By Christine Sili and Lauren Riordan

## Transition Year

Transition year has been a great year, full of lots of experiences and it was a year of maturity. Transition year is a lot different to a normal exam year, In transition year you go on multiple trips, experience things in different ways, learn new skills and build confidence that you might not of had at the beginning of the year.

At the start of fourth year we went on an overnight trip for the gaisce, by going on this trip it helped our class bond and get to know one another. Staying in the same classroom with the same people could cause conflict but as time went by the class started to get along with one another and most people began to get used to the different classroom environment.

In fourth year we did our YSI project which was on Gobal Goals before we did this project we had known nothing about these goals or our environment and how we could improve it. By doing 4th year we learned about things that we might not have learned about in 5th year.

For horticulture we went to the Zoo. There we had a man bring us around and tell us about all the animals and their habitats, this was interesting and taught me more then I already knew.

Mini company had to have been the hardest part of 4th year as it was stressful and very time consuming. If you had a great idea and product you would earn profits and be able to keep the money you earned.

We were brought to the Botanic gardens and taught about all different plant life. The gardens were beautiful and there was one garden house that looked like a mini jungle I hadn't see anything like it before.

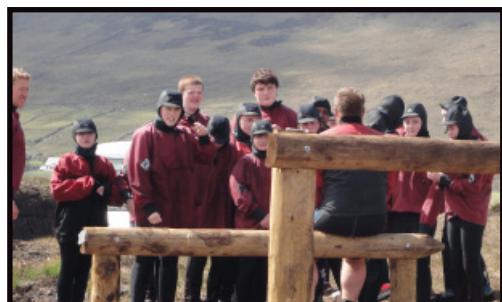

For P.E class we went on a trip to a park that had orienteering maps and we had to find the matching letters to the numbers that were on the map. The task was made out for team work and to create different skills such as communication. Another project we did for P.E

was setting up a 6th class bench ball tournament this took up a lot of time and preparation but the 6th class students seemed to have enjoyed themselves and it was a lot of fun. A few students from TY class went to a Frisbee tournament. lots of other schools attended this tournament. This was lots of fun as we met new people and competed in games of Frisbee.

If we could do 4th year all over again in our opinion we would as it teaches you many things you don't learn in other years and it helps to build your confidence and learn skills you never knew you had before hand. 4th year was a great learning experience and a break from exams.

## Mount Joy Speech

The talk about mount joy prison today 27th of April 2016 was very encouraging to do well in life and which it was very interesting. For the talk we went to Riversdale Community College whom were very welcoming.

The man that gave us the speech was the governor of Mount Joy prison for 40 years, He had a lot of information and experience that he gained from his career. This man warned us about the dangers of drugs and the poor environments which lead to bad influences, drug use and bad behaviour. He told us sad but lesson learning stories about people who did drugs and the people in the Joy.

I have learned that drugs are more serious than what I had taught. We don't actually know what is in drugs, how it is made and where they come from.

Prison is what you see on real life Tv shows it can be dangerous and life threatening inside the prison walls. The man told us in his career 4 people have been murdered. People have gotten really bad beatings within 10 seconds of the governors sight.

Weapons used inside prisons could be a razor attached onto a tooth brush which would be used to scrape others faces and leave them scarred for life.

Many prisoners involved with drugs were scared to leave prison grounds as they would suspect that they would be shot as soon as they stepped out of the prison gates, Which has happened. Drugs are not just a one time thing, They are addictive and can ruin lives. They are a serious deal and this talk has taught us that.

## Beat the Blues

On Tuesday the 20th of October 2015 tys took part in a beat the blues workshop it lasted for about an hour and a half.

During the workshop we learned about many different mental illnesses like anxiety and depression but we mainly learned about depression we learned what could cause depression what the side effects of depression are and how to cope with it.

We also learned that 1-10 people suffer from a mental health disorder I myself learned lots I did not know before all and all it was a great experience and I would definitely do it again

## BK Innu

On Tuesday two women came in a did a workshop with the ty class we did a variety of activities like learning what to do when going to a job interview how to set a dinner table and most of all just how to have manners.

At the end of the day the women had a red carpet out in the main hall of our school. We got to walk down it but as we did we had our journals on our heads and had a little competition seeing who could keep it up the longest, It was a great memory we have as a class the whole day was very successful from the ty class we thank the BK Innu women for a great day.

# NOTES

## **BLAKESTOWN COMMUNITY SCHOOL PROCLAMATION**

**TO ALL CITIZENS OF THE IRISH REPUBLIC BOTH AT HOME AND ABROAD WE SHOULD BE PROUD OF WHO WE ARE AND WHERE WE BELONG. THE IRISH REPUBLIC IS ABOUT THE ALLEGIANCE OF THE IRISH PEOPLE TO OUR COUNTRY. THE REPUBLIC GUARANTEES RELIGIOUS FREEDOM, CIVIL LIBERTY, EQUAL RIGHTS AND OPPORTUNITIES TO ALL ITS CITIZENS.**

**FOR ALMOST 100 YEARS IRELAND HAS BEEN A STRONG AND INDEPENDENT COUNTRY WE ARE KNOWABLE TO VOTE AND ELECT A NEW GOVERNMENT EVERY 5 YEARS. THE IRELAND OF 2016 IS A MODERN, SUCCESSFUL, MULTICULTURAL AND DIVERSE COUNTRY, IN STARK CONTRAST TO CONDITIONS WE LIVED IN 100 YEARS AGO IN 1916. WE NOW HAVE THE RIGHT TO BE REASONABLE FOR IRELAND. WE CALL ON OUR PEOPLE TO SUPPORT OUR PEACE KEEPING ROLE IN THE UNITED NATIONS.**

**WE SHOULD CONTINUE TO REMEMBER AND REFLECT ON THOSE WHO FOUGHT AND DIED FOR OUR COUNTRY. THEY FOUGHT FOR A FAIR AND JUST SOCIETY. IT IS ONLY RIGHT THAT WE CONTINUE TO PRESERVE AND ACKNOWLEDGE THAT GENERATIONS SACRIFICE AND VISION. WE OUGHT TO PROVE OURSELVES WORTHY OF THE AUGUST DESTINY TO WHICH IT IS CALLED.**

**SIGNED ON BEHALF OF BLAKESTOWN  
COMMUNITY SCHOOL**
